**GPS
Compatible**

DISCLAIMER

While every attempt is made to maintain accuracy, the authors, GOLDDIGGER and Mosquito Publications assume no responsibility or liability for inaccurate, incorrect or missing information. It is recommended that the user of this product perform his / her own research to further increase the knowledge of a site. We strongly recommend that permission of the owner of any site be obtained prior to a search.

FEDERAL LAWS

In addition to the ARPA Laws, an additional Federal law called "Abandoned Shipwreck Act of 1987" is in effect and is being enforced.

This law gives the individual States control over historic shipwrecks lying within 3 miles of the Atlantic and Pacific coasts and 10 miles off of the Gulf Coast.

DISTANCE MEASUREMENTS NOTE:

All distance measurements for sites are direct, from point A to point B and are **NOT** road measurements. Distance measurements are taken from the center of one point to the center of the other. Linear measurements are usually accurate to one tenth mile (1/10th mile), while Latitude and Longitude coordinates are accurate to one thousandth of one second, which equates to approximately 30 feet.

WHAT IS A GHOST TOWN?

There have been many inquiries as to how we have determined what establishes the parameters for ghost town status. While there doesn't seem to be any defined parameters, Mosquito Publishing has used the following:

That a town or settlement was at one time a thriving and viable community. That it subsequently declined to the point that it was virtually abandoned or deserted.

It was a rule of thumb that communities were established on good land. That being the case, even though the original town may have declined to ghost town status, as modern communities expand, they often cover the site of a previous settlement. This occurrence is happening more rapidly as our population expands. The site would still be considered as a ghost town site, even if covered by modern construction and no visible signs of the original town exists.

ADAMS COUNTY

ANNA

Latitude N31 41.807' Longitude W91 21.092' Type Site: Ghost

Info: LOCATED ABOUT 7 MILES WEST OF CHURCH HILL ON SR 555.

CARTHAGE LANDING

Latitude N31 31.598' Longitude W91 26.761' Type Site: Ghost

Info: LOCATED ABOUT 5 MILES SOUTHWEST OF NATCHEZ AND NEAR THE MISSISSIPPI RIVER.

FORT ROSALIE

Latitude N31 33.502' Longitude W91 24.479' Type Site: Military

Mississippi State Law

STATE OF MISSISSIPPI

Mississippi Department of Archives and History

Historic Preservation Division

CHAPTER 7

Antiquities

39-7-3 - Declaration of public policy

It is hereby declared to be the public policy and in the public interest of the State of Mississippi to locate, protect, and preserve all sites, objects, buildings, shipwrecks, and locations of historical, archaeological, or architectural significance, including, but not limited to historically or architecturally significant buildings, structures relating to significant engineering accomplishments, prehistoric and historical American or Aboriginal campsites, dwellings, and habitation sites, archaeological sites of every character, treasure imbedded in the earth, sunken or abandoned ships and wrecks of the sea or any part or the contents thereof, maps, records, documents, books, artifacts, and implements of culture in any way related to the inhabitants, prehistory history, natural history, government, or culture in, on or under any of the lands, tidelands, submerged lands, and bed of the sea within the jurisdiction of the State of Mississippi.

30-7-9 Shipwrecks and buried treasure designated Mississippi landmarks to be the sole property of state.

All sunken or abandoned ships and wrecks of the sea, and any part or the contents thereof, and all treasure imbedded in the earth, located in, on or under the surface of lands belonging to the State of Mississippi, including its tidelands, submerged lands and the beds of its rivers and the sea within the jurisdiction of the State of Mississippi are hereby declared to be Mississippi landmarks and are the sole property of the State of Mississippi and may not be taken, altered, damaged, destroyed, salvaged or excavated without a contract or permit of the board.

39-7-11 Mississippi landmarks; designation of landmarks; recording; removals from or alteration of private lands within areas.

(1) All other sites, objects, buildings, artifacts, implements, and locations of archaeological significance, including, but expressly not limited to, those pertaining to prehistoric and historical American Indian or aboriginal campsites, dwellings, and habitation sites, their artifacts and implements of culture, as well as archaeological sites of every character that are located in, on or under the surface of any lands belonging to the State of Mississippi or to any county, city, or political subdivision of the state, are hereby declared to be Mississippi landmarks and are the sole property of the State of Mississippi. Such sites may not be taken, altered, destroyed, salvaged or excavated without a permit from the board or in violation of the terms of such permit.

(2) All other sites, objects, buildings, artifacts, implements, structures and locations of historical significance located in or under the surface of any lands belonging to the State of Mississippi or to any county, city or political subdivision of the state may be declared to be Mississippi landmarks by majority vote of the board. Every Mississippi landmark shall be so designated based upon its significance within the historical or architectural patterns of a community, a county, the State of Mississippi, or the United States of America. Upon such action by the board, the designation of the Mississippi landmark shall be recorded in the deed records of the county in which the landmark is located. All such designated sites or items located on public lands within the State of Mississippi may not be taken, altered, damaged, destroyed, salvaged, restored, renovated or excavated without a permit from the board, or in violation of the terms of such permit.

(3) All such sites or items located on private lands within the State of Mississippi that have been designated as Mississippi landmarks as hereinafter provided, may not be taken, altered,

damaged, destroyed, salvaged, restored, renovated or excavated without a permit from the board or in violation of the terms of such permit. Such designation shall be reduced to recordable form sufficiently describing the site so that it may be located and shall be recorded in the deed records of the county in which the landmark is located.

39-7-13 Sites located upon private lands; requisites for designation.

Any site located upon private lands which is determined by majority vote of the board to be of sufficient archaeological, historical or architectural significance may be designated as a Mississippi landmark. It is specifically provided, however, that no such site shall be so designated upon private land without the written consent of the landowner or landowners in recordable form sufficiently describing the site so that it may be located. Upon such designation the consent of the landowner shall be recorded in the deed records of the county in which the land is located. Any such site upon private land shall be marked by at least one (1) marker, approved by the board, bearing the words "Mississippi Landmark" for each five (5) acres of area.

39-7-15 Removal from designation.

Upon majority vote of the board any Mississippi landmark on public or private land may be determined to be of no further historical, archaeological, or architectural significance, or not of sufficient significance to warrant its further classification as such, and upon such determination it may be removed from such designation. In the case of sites located on private land that have therefore been designated by instrument of record, the board is authorized to cause to be executed and recorded in the deed records of the county where such site is located and instrument setting out such determination and releasing the site from the provisions thereof.

39-7-17 Contracts for salvage; surveys; excavation.

The board shall be authorized to enter into contracts with other state agencies or institutions and with qualified private institutions, corporations, or individuals for the discovery and salvage of treasure imbedded in the earth, sunken or abandoned ships or wrecks of the sea, parts thereof and their contents. Such contracts are to be on forms approved by the attorney general. The contracts may provide for fair compensation to the salvager in terms of a percentage of the reasonable cash value of the objects recovered, or at the discretion of the board, of a fair share of the objects recovered. The amount constituting a fair share shall be determined by the board, taking into consideration the circumstances of each such operation. The reasonable cash value may be determined by contract provision providing for appraisal by qualified experts or by representatives of the contracting parties and their representative or representatives. Such contract shall provide for the termination of any right in the salvager or permittee thereunder upon the violation of any of the terms thereof. Superior title to all objects recovered shall be retained by the State of Mississippi unless and until it is released to the salvager or permittee by the board. No person, firm, or corporation may conduct such salvage or recovery operation herein described without first obtaining such contract. All such contracts shall specify, among other things, the location, nature of the activity, and the time period covered thereby, and when executed are to be recorded by the person, firm, or corporation obtaining such contract, in the office of the chancery clerk in the county or counties where such operations are to be conducted, prior to the commencement of such operation.

The board shall be authorized to conduct surveys to identify to the State of Mississippi, or any county, city or political subdivisions of the state and to excavate or study all Mississippi landmarks. The board shall be further authorized to identify and excavate historic, architectural, or archaeological sites on private property, however, it is specifically provided that no such survey may be undertaken on private land without consent of the landowner and that no excavation may be undertaken on private land without the landowner's written consent.

39-7-19 Permits for salvage or studies at Mississippi landmarks.

The board shall be authorized to issue permits to other state agencies or institutions and to qualified private institutions, companies, or individuals for the taking, salvaging, excavating, restoring, or the conducting of scientific or educational studies at, in or on Mississippi landmarks as in the opinion of the board would be in the best interest of the State of Mississippi. Such permits may provide for the retaining by the permittee of a portion of any recovery, as set out for contracting parties under section 39-7-17. Such permit shall provide for the termination of any rights in the permittee thereunder upon the violation of any of the terms thereof and shall be drafted in compliance with forms approved by the attorney general. All such permits shall specify, among other things, the location, nature of the activity, and time period covered thereby. No person, firm, or corporation shall conduct any such operations on any Mississippi landmarks without first obtaining and having in his or its possession such permit at the site of such operation, nor shall such operations be conducted in violation of the provisions of such permit.

39-7-31. Entry upon land of another to deface, remove or destroy archaeological relics or sites.

No person, not being the owner thereof, and without the written consent of the owner, proprietor, lessee, or person in charge thereof, shall enter or attempt to enter upon the lands of another and intentionally injure, disfigure, remove, excavate, damage, take, dig into, or destroy any historical structure, monument, marker, medallion, or artifact, or any prehistoric or historic archaeological site, American Indian or aboriginal remains located in, on or under any private lands within the State of Mississippi. No person without a permit from the board, and without written permission of the landowner, shall intentionally injure, disfigure, remove, excavate, damage, take, dig into, or destroy any prehistoric or historic American Indian or aboriginal burial.

39-7-35. Penalties for violation.

Any persons violating any of the provisions of this chapter shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not less than five hundred dollars (\$500.00) and not more than five thousand dollars (\$5,000.00) or by confinement in jail for not more than thirty (30) days, or by both such fine and confinement. Each day of continued violation of any provision of this chapter shall constitute a distinct and separate offense for which the offender may be punished.

Prior to reading Archaeological Resources Protection Act of 1979, the following comments are inserted for your information and benefit:

- (a) **Be aware** that this is not the only law or code that governs the activities we, as metal detector enthusiasts, enjoy.
- (b) This law was superseded in many parts by the ARPA code of 1988. Better check this one out.
- (c) This law is a federal law and as such, state, county, and or municipal codes may also apply.
- (d) The writers of this program assume **NO** liability for omissions, errors, , any persons actions or the lack thereof, or any thing else. This section is for information only , and may or may not be correct and/or up-to-date.

Archaeological Resources Protection Act of 1979

AN ACT To protect archaeological resources on public lands and Indian lands, and for other purposes.

Be it enacted of the Senate and the house of Representatives of the United States of America in Congress assembled,

SHORT TITLE

Section 1. This Act may be cited as the "Archaeological Resources Protection Act of 1979".

FINDINGS AND PURPOSE

SEC. 2. (a) The Congress finds that-

- (1) archaeological resources on public lands and Indian lands are an accessible and irreplaceable part of the Nation's heritage;
- (2) these resources are increasingly endangered because of their commercial attractiveness;
- (3) existing Federal laws do not provide adequate protection to prevent the loss and destruction of these archaeological resources and sites resulting from uncontrolled excavations and pillage; and
- (4) there is a wealth of archaeological information which has been legally obtained by private individuals for noncommercial purposes and which could voluntarily be made available to professional archaeologists and institutions.

(b) The purpose of this Act is to secure, for the present and future benefit of the American people, the protection of archaeological resources and sites which are on public lands and Indian lands, and to foster increased cooperation and exchange of information between governmental authorities, the professional archaeological community, and private individuals having collections of archaeological resources and data which were obtained before the date of the enactment of this Act.

DEFINITIONS

SEC. 3. As used in this Act-

- (1) The term "archaeological resource" means any material remains of past human life or activities which are of archaeological interest, as determined under the uniform regulations promulgated pursuant to this Act.
Such regulations containing such determination shall include, but not be limited to: pottery, basketry, bottles, weapons, weapon projectiles, tools, structures or portions of structures, pit houses, rock paintings, rock carvings, intaglios, graves, human skeletal materials, or any portion or piece of any of the foregoing items.
Non-fossilized and fossilized paleontological specimens, or any portion or piece thereof, shall not be considered archaeological resources, under the regulations under this paragraph, unless found in an archaeological context. No item shall be treated as an archaeological resource under regulations under this paragraph unless such item is at least 100 years of age.
- (2) The term "Federal land manager" means, with respect to any public lands, the Secretary of the department, or the head of any other agency or instrumentality of the United States, having primary management authority over such lands. In the case of any public lands or Indian lands with respect to which no department, agency, or instrumentality has primary management authority, such term means the Secretary of the Interior. If the Secretary of the Interior consents, the responsibilities (in whole or in part) under this Act of the Secretary of any department (other than the Department of the Interior) or the head of any other agency or instrumentality may be delegated to the Secretary of the Interior with respect to any land managed by such other Secretary or agency head, and in any such case, the term "Federal land manager" means the Secretary of the Interior.
- (3) The term "public lands" means-
 - (A) lands which are owned and administered by the United States as part of -
 - (i) the national park system,
 - (ii) the national wildlife refuge system, or
 - (iii) the national forest system; and
 - (B) all other lands the fee title to which is held by the United States, other than lands on the Outer Continental Shelf and lands which are under the jurisdiction of the Smithsonian Institution;
- (4) The term "Indian lands" means lands of Indian tribes, or Indian individuals, which are either held in trust by the United States or subject to a restriction against alienation imposed by the United States, except for any subsurface interest in lands not owned or controlled by an Indian tribe or an Indian individual.
- (5) The term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (85 Stat. 688).

- (6) The term "person" means an individual, corporation, partnership, trust, institution, association, or any other private entity or any officer, employee, agent, department, or instrumentality of the United States, of any Indian tribe, or of any State or political subdivision thereof.
- (7) The term "State" means any of the fifty States, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

EXCAVATION AND REMOVAL

- SEC. 4. (a) Any person may apply to the Federal land manager for a permit to excavate or remove any archaeological resource located on public lands or Indian lands and to carry out activities associated with such excavation or removal. The application shall be required, under uniform regulations under this Act, to contain such information as the Federal land manager deems necessary, including information concerning the time, scope, and location and specific purpose of the proposed work.
- (b) A permit may be issued pursuant to an application under subsection (a) if the Federal land manager determines, pursuant to uniform regulations under this Act, that:
 - (1) the applicant is qualified, to carry out the permitted activity,
 - (2) the activity is undertaken for the purpose of furthering archaeological knowledge in the public interest,
 - (3) the archaeological resources which are excavated or removed from public lands will remain the property of the United States, and such resources and copies of associated archaeological records and data will be preserved by a suitable university, museum, or other scientific or educational institution, and
 - (4) the activity pursuant to such permit is not inconsistent with any management plan applicable to the public lands concerned.
 - (c) If a permit issued under this section may result in harm to, or destruction of, any religious or cultural site, as determined by the Federal land manager, before issuing such permit, the Federal land manager shall notify any Indian tribe which may consider the site as having religious or cultural importance. Such notice shall not be deemed a disclosure to the public for purposes of section 9.
 - (d) Any permit under this section shall contain terms and conditions, pursuant to uniform regulations promulgated under this Act, as the Federal land manager concerned deems necessary to carry out the purposes of this Act.
 - (e) Each permit under this section shall identify the individual who shall be responsible for carrying out the terms and conditions of the permit and for otherwise complying with this Act and other law applicable to the permitted activity.
 - (f) Any permit issued under this section may be suspended by the Federal land manager upon his determination that the permittee has violated any provision of subsection (a), (b), or (c) of section 6. Any such permit may be revoked by such Federal land manager upon assessment of a civil penalty under section 7 against the permittee or upon the permittee's conviction under section 6.
 - (g)
 - (1) No permit shall be required under this section or under the Act of June 8, 1906 (16 U.S.C. 431), for the excavation or removal by any Indian tribe or member thereof of any archaeological resource located on Indian lands of such Indian tribe, except that in the absence of tribal law regulating the excavation or removal of archaeological resources on Indian lands, an individual tribal member shall be required to obtain a permit under this section.
 - (2) In the case of any permits for the excavation or removal of any archaeological resources located on Indian lands, the permit may be granted only after obtaining the consent of the Indian or Indian tribe owning or having jurisdiction over such lands. The permit shall include such terms and conditions as may be requested

by such Indian or Indian tribe.

- (g) (1) No permit or other permission shall be required under the Act of June 8, 1906 (16 U.S.C. 431-433), for any activity for which a permit is issued under this section.
- (2) Any permit issued under the Act of June 8, 1906, shall remain in effect according to its terms and conditions following the enactment of this Act. No permit shall be required to carry out any activity under a permit issued under the Act of June 8, 1906, before the date of the enactment of this Act which remains in effect as provided in this paragraph, and nothing in this Act shall modify or affect any such permit.
- (i) Issuance of a permit in accordance with this section and applicable regulations shall not require compliance with section 106 of the Act of October 15, 1966 (80 Stat. 917, 16 U.S.C. 470f).
- (j) Upon the written request of the Governor of any State, the Federal land manager shall issue a permit, subject to the provisions of subsections (b)(3), (b)(4), (c), (e), (f), (g), (h), and (i) of this section for the purpose of conducting archaeological research, excavation, removal, and curation, on behalf of the State or its educational institutions, to such Governor or to such designee as the Governor deems qualified to carry out the intent of this Act.

CUSTODY OF RESOURCES

Sec. 5. The Secretary of the Interior may promulgate regulations providing for-

- (1) the exchange, where appropriate, between suitable universities, museums, or other scientific or educational institutions, of archaeological resources removed from public lands and Indian lands pursuant to this Act, and
- (2) the ultimate disposition of such resources and other resources removed pursuant to the Act of June 27, 1960 (16 U.S.C. 469-469c) or the Act of June 8, 1906 (16 U.S.C. 431-433). Any exchange or ultimate disposition under such regulation of archaeological resources excavated or removed from Indian lands shall be subject to the consent of the Indian or Indian tribe which owns or has jurisdiction over such lands. Following promulgation of regulations, under this section, notwithstanding any other provision of law, such regulations shall govern the disposition of archaeological resources removed from public lands and Indian lands pursuant to this Act.

PROHIBITED ACTS AND CRIMINAL PENALTIES

- Sec. 6. (a) No person may excavate, remove, damage, or otherwise alter or deface any archaeological resource located on public lands or Indian lands unless such activity is pursuant to a permit issued under section 4, a permit referred to in section 4(h)(2), or the exemption contained in section 4(g)(1).
- (b) No person may sell, purchase, exchange, transport, receive, or offer to sell, purchase, or exchange any archaeological resource if such resource was excavated or removed from public lands or Indian lands in violation of-
- (1) the prohibition contained in subsection (a), or
- (2) any provision, rule, regulation, ordinance, or permit in effect under any other provision of Federal law.
- (c) No person may sell, purchase, exchange, transport, receive, or offer to sell, purchase, or exchange, in interstate or foreign commerce, any archaeological resource excavated, removed, sold, purchased, exchanged, transported, or received in violation of any provision, rule, regulation, ordinance, or permit in effect under State or local law.

(d) Any person who knowingly violates, or counsels, procures, solicits, or employs any other person to violate, any prohibition contained in subsection (a), (b), or (c) of this section shall, upon conviction, be fined not more than \$10,000 or imprisoned not more than one year, or both: Provided, however, That if the commercial or archaeological value of the archaeological resources involved and the cost of restoration and repair of such resources exceeds the sum of \$5,000, such person shall be fined not more than \$20,000 or imprisoned not more than two years, or both. In the case of a second or subsequent such violation upon conviction such person shall be fined not more than \$100,000, or imprisoned not more than five years, or both.

(e) The prohibitions contained in this section shall take effect on the date of the enactment of this Act.

(f) Nothing in subsection (b)(1) of this section shall be deemed applicable to any person with respect to an archaeological resource which was in the lawful possession of such person prior to the date of the enactment of this Act.

(g) Nothing in subsection (d) of this section shall be deemed applicable to any person with respect to the removal of arrowheads located on the surface of the ground.

CIVIL PENALTIES

- Sec. 7. (a) (1) Any person who violates any prohibition contained in an applicable regulation or permit issued under this Act may be assessed a civil penalty by the Federal land manager concerned. No penalty may be assessed under this subsection unless such person is given notice and opportunity for a hearing with respect to such violation. Each violation shall be a separate offense. Any such civil penalty may be remitted or mitigated by the Federal land manager concerned.
- (2) The amount of such penalty shall be determined under regulation promulgated Pursuant to this Act, taking into account, in addition to other factors-
- (A) the archaeological or commercial value of the archaeological resource involved, and
 - (B) the cost of restoration and repair of the resource and the archaeological site involved.

Such regulations shall provide that, in the case of a second or subsequent violation by any person, the amount of such civil penalty may be double the amount which would have been assessed if such violation were the first violation by such person. The amount of any penalty assessed under this subsection for any violation shall not exceed an amount equal to double the cost of restoration and repair of resources and archaeological sites damaged and double the fair market value of resources destroyed or not recovered.

- (3) No penalty shall be assessed under this section for the removal of arrowheads located on the surface of the ground.
- (b) (1) Any person aggrieved by an order assessing a civil penalty under subsection (a) may file a petition for judicial review of such order with the United States District Court for the District of Columbia or for any other district in which such a person resides or transacts business. Such a petition may only be filed within the 30-day period beginning on the date the order making such assessment was issued. The court shall hear such action on the record made before the Federal land manager and shall sustain his action if it is supported by substantial evidence on the record considered as a whole.
- (2) If any person fails to pay an assessment of a civil penalty-
- (A) after the order making the assessment has become a final order and such person has not filed a petition for judicial review of the order in accordance with paragraph (1), or
 - (B) after a court in an action brought under paragraph (1) has entered a final judgment upholding the assessment of a civil penalty, the Federal land managers may request the Attorney General to institute a civil action in a district court of the United States for any district in which such person is found, resides, or transacts business to collect the penalty and such court shall have jurisdiction to hear and decide any such

action. In such action, the validity and amount of such penalty shall not be subject to review.

- (c) Hearings held during proceedings for the assessment of civil penalties authorized by subsection
- (a) shall be conducted in accordance with section 554 of title 5 of the United States Code. The Federal land manager may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and administer oaths. Witnesses summoned shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States. In case of contumacy or refusal to obey a subpoena served upon any person pursuant to this paragraph, the district court of the United States for any district in which such person is found or resides or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Federal land manager or to appear and produce documents before the Federal land manager, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

REWARDS; FORFEITURE

- Sec. 8. (a) Upon the certification of the Federal land manager concerned, the Secretary of the Treasury is directed to pay from penalties and fines collected under sections 6 and 7 an amount equal to one-half of such penalty or fine, but not to exceed \$50 0, to any person who furnishes information which leads to the finding of a civil violation, or the conviction of criminal violation, with respect to which such penalty or fine was paid. If several persons provided such information, such amount shall be divided among such persons. No officer or employee of the United States or of any service in the performance of his official duties shall be eligible for payment under this subsection.
- (b) All archaeological resources with respect to which a violation of subsection (a), (b), or (c) of section 6 occurred and which are in the possession of any person, and all vehicles and equipment of any person which were used in connection with such violation, may be (in the discretion of the court or administrative law judge, as the case may be) subject to forfeiture to the United States upon-
- (1) such person's conviction of such violation under section 6,
 - (2) assessment of a civil penalty against such person under section 7 with respect to such violation, or
 - (3) a determination of any court that such archaeological resources, vehicles, or equipment were involved in such violation.
- (c) In cases in which a violation of the prohibition contained in subsection (a), (b), or (c) of section 6 involve archaeological resources excavated or removed from Indian lands, the Federal land manager or the court, as the case may be, shall provide for the payment to the Indian or Indian tribe involved of all penalties collected pursuant to section 7 and for the transfer to such Indian or Indian tribe of all items forfeited under this section.

CONFIDENTIALITY

- Sec. 9. (a) Information concerning the nature and location of any archaeological resource for which the excavation or removal requires a permit or other permission under this Act or under any other provision of Federal law may not be made available to the public under subchapter II of chapter 5 of title 5 of the United States Code or under any other provision of law unless the Federal land manager concerned determines that such disclosure would-
- (1) further the purposes of this Act or the Act of June 27, 1960 (16 U.S.C. 469-469c), and
 - (2) not create a risk of harm to such resources or to the site at which such resources are located.
- (b) Notwithstanding the provisions of subsection (a), upon the written request of the Governor of any State, which request shall state-
- (1) the specific site or area for which information is sought,
 - (2) the purpose for which such information is sought,
 - (3) a commitment by the Governor to adequately protect the confidentiality of such information to protect the resource from commercial exploitation, the Federal land manager concerned shall provide to the Governor information concerning the nature and location of archaeological resources within the State of the requesting Governor.

REGULATIONS; INTERGOVERNMENTAL COORDINATION

- Sec 10. (a) The Secretaries of the Interior, Agriculture and Defense and the Chairman of the Board of the Tennessee Valley Authority, after public notice and hearing, shall promulgate such uniform rules and regulations as may be appropriate to carry out the purposes of this Act. Such rules and regulations may be promulgated only after consideration of the provisions of the American Indian Religious Freedom Act (92 Stat. 469; 42 U.S.C.1996). Each uniform rule or regulation promulgated under this Act shall be submitted on the same calendar day to the Committee on Energy and Natural Resources of the United States Senate and to the Committee on Interior and Insular Affairs of the United States House of Representatives, and no such uniform rule or regulation may take effect before the expiration of a period of ninety calendar days following the date of its submission to such Committees.
- (b) Each Federal land manager shall promulgate such rules and regulations under subsection (a), as may be appropriate for the carrying out of his functions and authorities under this Act.

COOPERATION WITH PRIVATE INDIVIDUALS

- Sec. 11. The Secretary of the Interior shall take such action as may be necessary, consistent with the purposes of this Act, to foster and improve the communication, cooperation, and exchange of information between-
- (1) private individuals having collections of archaeological resources and data which were obtained before the date of the enactment of this Act, and
 - (2) Federal authorities responsible for the protection of archaeological resources on the public lands and Indian lands and professional archaeologists and associations of professional archaeologists.

In carrying out this section, the Secretary shall, to the extent practicable and consistent with the provisions of this Act, make efforts to expand the archaeological data base for the archaeological resources of the United States through increased cooperation between private individuals referred to in paragraph (1) and professional archaeologists and archaeological organizations.

SAVINGS PROVISIONS

- Sec. 12.
- (a) Nothing in this Act shall be construed to repeal, modify, or impose additional restrictions on the activities permitted under existing laws and authorities relating to mining, mineral leasing, reclamation, and other multiple uses of the public lands.
 - (b) Nothing in this Act applies to, or requires a permit for, the collection for private purposes of any rock, coin, bullet, or mineral which is not an archaeological resource, as determined under uniform regulations promulgated under section 3(1).
 - (c) Nothing in this Act shall be construed to affect any land other than public land or Indian land or to affect the lawful recovery, collection, or sale of archaeological resources from land other than public land or Indian land.

REPORT

- Sec. 13. As part of the annual report required to be submitted to the specified committees of the Congress pursuant to section 5(c) of the Act of June 27, 1960 (74 Stat. 220; 16 U.S.C. 469-469a), the Secretary of the Interior shall comprehensively report as a separate component on the activities carried out under the provisions of this Act, and he shall make such recommendations as he deems appropriate as to changes or improvements needed in the provisions of this Act. Such report shall include a brief summary of the actions undertaken by the Secretary under section 11 of this Act, relating to cooperation with private individuals.

NOTE:

The following is the amendment to ARPA 1979

PUBLIC LAW 100-588 - NOV. 3, 1988 102 STAT. 2983

Public Law 100-588
100th Congress

An Act

Nov. 3, 1988 To amend the Archaeological Resources Protection Act of 1979 to strengthen
(H.R. 4068) the enforcement provisions of that Act, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. AMENDMENTS TO ARCHAEOLOGICAL RESOURCES PROTECTION ACT OF 1979.

16 USC (a) Section 3(3) of such Act is amended by striking out the semi-colon
470bb at the end thereof and submitting a period.

16USC (b) Section 6(a) of such Act is amended by inserting after "deface" the
470ee. Following:", or attempt to excavate, remove, damage, or otherwise alter or deface".

(c) Section 6(d) of such Act is amended by striking "\$5,000" and inserting in lieu thereof "\$500".

16 USC (d) Section 10 of such Act is amended by adding the following new
470ii. subsection at the end thereof:

Public (e) Each Federal land manager shall establish a program to increase
lands. public awareness of the significance of the archaeological resources located on public lands and Indian lands and the need to protect such resources. Each such land manager shall submit an annual report to the Committee on Affairs of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate regarding the actions taken under such program.

Approved November 3, 1988.

PUBLIC LAW 100-555-OCT., 28, 1988 102 STAT. 2778

Public Law 100-555
100th Congress

AN ACT

Oct. 28, 1988 To improve the protection and management of archaeological resources on
(S. 1985) Federal land.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled. That the Archaeological Resources Protection Act of 1979 (Public Law 96-95: 16 U.S.C. 470ii) be amended to add the following new section after section 13:

16 USC
470mm.

“Sec. 14. The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Board of the Tennessee Valley Authority shall—

“(a) develop plans for surveying lands under their control to determine the nature and extent of archaeological resources on those lands;

“(b) prepare a schedule for surveying lands that are likely to contain the most scientifically valuable archaeological resources; and

“(c) develop documents for the reporting of suspected violations of this Act and establish when and how those documents are to be completed by officers, employees, and agents of their respective agencies.”.

Approved October 28, 1988
